Make your own koala garland!

The stuff you’ll need:
1. A helpful adult.
2. Some string.
3. Some scissors.
4. Something to poke a hole.
5. Beads or other decorative bits and pieces (optional).

What to do:
1. Cut out the decorations from these pages.
2. Punch a tiny hole for the string at the top of each decoration.
3. One by one, place each decoration onto the string.
4. String up your fancy new garland wherever you like – on your window, on your toys, on a sleeping adult... ok, perhaps not on a sleeping adult. We don’t want them to wake up and think they’ve been mugged by koala faries in their sleep.
5. Stand back and admire your handywork.

Koalas eat gum leaves.
